HONGKONG, DECEMBER 23RD, 1905.

While the recent awakening of the great but unwieldy realm of China to a sense of her own importance amongst the nations of the world cannot be looked upon otherwise than as, in the long run, satisfactory for the world at large, it yet has its embarrassing features: not the least unsatisfactory part of which, as we the other day pointed out in connection with railway affairs, was that it was being taken advantage of by the reactionary party to block the wheels of progress. A curious instance of how slight is as yet the way gained, is afforded by the change in the deportment of the five commissioners being sent under Imperial auspices to study on the spot the practical working of representative governments throughout Europe. But a few weeks ago the first step was taken amidst the universal plaudits of the nation: the new light had already dawned and all classes concurred in forecasting a happy result for the rejuvenated Empire. The explosion of a single bomb carried by an unknown, and apparently unframed individual has, to all outward appearance, changed all that, and the Commissioners, no longer the hope of the patriotic classes of the land, half ashamed of themselves, and no longer the observed of all beholders, are with ill grace being literally thrust out, practically ignominiously, and certainly unwillingly. The lessons of many years have, in fact, under this new excitement been momentarily forgotten, and consciously or unconsciously

we find China, but a few days ago with her garments bound up and her face resolute to take the needed step, now halting, shivering on the brink, and again turning a longing glance to the old slough of despond whence her best friends had hoped that she had at last escaped. Now be it understood we are not deprecating in any way the returning desire of China to be once more a power amongst the nations: on the contrary we should welcome such a movement with outstretched arms, but China's return to greatness is not to be accomplished in her present mood, which is simply a lurking back on the old tracks of self-conceited ignorance. With much humiliation of spirit her exemplar, Japan, saw the necessity, would she too be great, of accepting the rôle of learner and sitting at the feet of Europe; her path was not made smooth for her, and many a time she was disposed to resent her treatment, but if her humiliation was great her reward has been still greater, and now her alliance and friendship is a thing sought by the greatest of the powers. If it be China's ambition to take her place likewise amongst the great nations, the way is likewise open to her: she will receive more help than Japan; but, and there is a very effectual but in the case, she must, as a preliminary, attain the art of learning without temper or self-assertion. Now unfortunately it has been the weak point of China that throughout all her history she has been wanting in these very qualities; and it is not too much to say that in all ages her chief calamities have befallen her through their lack. The present year has shown that she has not even yet begun to see the weakest of her many points of weakness. With a splendid case, and the sympathy of the entire world, she has succeeded in thoroughly alienating the public feeling of the United States by her weak attempt at boycotting a trade, in which she was herself the principal gainer; and equally her ill-timed self-assertion in the matter of railways, as she was just beginning to experience their benefits, political and commercial, seems likely to cause the withdrawal of her best friends and throw her back into the hands of those very Powers who, under the cloak of friendship, are plotting her destruction.

The recent affair at Shanghai exhibits more clearly still how seriously these defects of temper are retarding all her best efforts at amendment. Of the many points in which China stands in the rear ranks of civilisation, there is none more marked, even according to her own confession, than her administration of her criminal law. It is, in fact, one of those points on which her own wise men have in every age been agreed. In connection with her criminal law, her jails have at all times been a disgrace to humanity, and her wisest have acknowledged the necessity of her purging herself of the disgrace. It being an impossibility for any community belonging to the higher civilisation to exist under these conditions, when the port of Shanghai was opened, in the anticipation of an important settlement of merchants and others engaged in the commerce of the place, it was distinctly understood that on the foreign community should rest the responsibility for the good order of the place, and to that intent certain powers were conferred upon the community as a whole. The practical extinction of all rule of any sort in the districts round, consequent on the Taiping Rebellion, caused numbers of Chinese to seek refuge in the settlements, where all through under the aegis of foreign protection, order had been preserved. When the Imperial government was restored in the country round neither side made any efforts to alter these conditions, which practically both native and foreign, found advantageous. At the same time no attempt was made to bring these native residents under foreign law except in so far as the necessary municipal regulations for the good order and the sanitation of the Settlements were concerned, and the execution of these even being left in the hands of the constituted Imperial authorities. A naturally somewhat complacent system of local jurisprudence sprang up, and to render this capable of practical administration, the so-called "Mixed Courts" were established under the sole authority of the Emperor of China as Lord of the Soil.

By degrees these Mixed Courts, which for a time had been fairly clean, began to revel in all the iniquities and dirt which grow up in congenial soil about the native Yamen. Unpaid runners with indefinite duties, but with a generally understood right to live on their offices and to contribute towards the expenses of their superiors, were appointed

as in the native courts; their overt duties being to issue summonses, and make arrests. As the policing of the Settlements had from the first been placed in the hands of the "Committee" of the foreign land holders, and as these unpaid runners were making use of their offices to exact illegal fees, this no-system became a matter of complaint with the result that it was agreed that the runners of the Court should be accompanied by the Municipal Police in the execution of all warrants within the Settlements. But the right of jurisdiction, never in any case denied, was of necessity accompanied with the right of administration, and for that premises for court and execution were required, including, of course, the necessary jails. As in many cases the Magistrate was only too happy to be relieved of the trouble and expense of keeping his prisoners, a custom arose that the Municipality should take over the able-bodied and employ them on municipal roads and other useful works. Meanwhile the number of prisoners necessary to be provided for was, with the growth of the Settlements, the population of which already approached half a million, rapidly increasing. The jails provided by the Courts were, as all Chinese jails, utterly devoid of all attempts at sanitation, and with constant outbreaks of beri-beri were becoming a source of danger to the community at large. Under the circumstances, the Municipality built a new jail with all necessary appliances for sanitation and inspection, and the affair, taking expense and responsibility off the shoulders of the Magistrate of the Mixed Court, for a time went along merrily; no one was hurt, no dignity was offended, and better control was able to be exercised over the number of criminals who always gather around a growing population. Unfortunately for the peace of the community a new Taoist, one Mr. YUEN, afflicted with the newfangled ideas of dignity to which we have alluded, but unable to see the reason why it had become necessary for China to assert herself, was appointed to the post, which above all requires the exercise of good temper and discretion, in both of which he has proved himself lamentably deficient. The ordinary Chinese jail is bad enough, but on the female side all its drawbacks are magnified. When the male prisoners had been removed to the new jail with the approval of all, the female quarters were not completed. Meanwhile under new influences new officials were appointed, and when, on their completion, the Council wished to move the women into the new quarters the cry of insulting the sovereign dignity of China was raised. The new Magistrate took upon himself the task of building a new female jail, in all respects as its predecessor, and stoutly insisted on his rights to supreme control over his prisoners without any reference to the Settlement Regulations whether sanitary or otherwise. As in most cases where a wantonly aggressive attitude has been assumed, the actual outbreak was accidental, and had nothing to do whatever with the point of quarrel. Some prisoners, amongst whom were one or two women, were brought before the Court charged with kidnapping. There were one or two suspicious circumstances connected with the case, and it was by no means clear that any crime had been committed. Under the circumstances, it was decided to adjourn the case, and the British Assessor, in order to prevent undue influence being used, desired to have the accused taken to the Municipal Jail, where they would be properly treated and free from interference. The Magistrate, carefully primed by Taoist YUEN in the new principle of seeing in every remotest circumstance some interference with the dignity of the Empire, attempted to intermeddle by force, but naturally ineffectually. Had the thing been permitted to cool there would have been no further trouble, and a way out of the difficulty could have been quickly found without compromising either. Unfortunately the motto *appetit non perit* did not prevail the next day, and the Taoist, instead of attempting to bring those concerned together, took the unwise course of seeking to inflame the prejudices of his fellow subjects. Such has been the cause of the first dissolution of the hitherto well-understood entente, between the numerous nationalities of which the Foreign Settlements are built up. It is a proof, if such were needed, of the wisdom of the first measures adopted, as well as of the general ability for self-government of the residents, native as well as foreign, that for upwards of sixty years, until the advent of the present Taoist, no cause of quarrel has arisen to alienate the mutual sympathies of the residents, Chinese or foreign.

The Daily Press will appear as usual on Monday morning, Dec. 25; but there will be no issue on Tuesday (Boxing Day).

The German Mail of the 22nd November was delivered in London on the 21st inst.

The Sun Fire Office Calendar for 1906 is to hand, through the local agents, Messrs. Siemssen and Co.

Mr. F. D. Chesbire, American Consul-General at Canton, who has been home on leave, arrived by the S.S. Mongolia yesterday.

A smoking concert is announced to take place to-night at the rooms of the Institution of Engineers and Shipbuilders.

The Mother Superior and the Sisters of the Italian Convent wish to thank the gentlemen who so generously subscribed towards the Orphans' Christmas Fund.

The winter solstice, or Tung-Chih, opened yesterday. Foreigners sometimes speak of this date, without reason, as the "Chinese Christmas."

From Messrs. E. D. Sassoon and Co., the local agents, we have received the pretty wall calendar issued by the Queen (now merged in "Royal") Insurance Company for 1906, together with a blotter and a pocket almanac and diary.

Mr. W. D. Graham announces that while continuing to direct the Eastern Agencies of Messrs. Wilkinson, Heywood and Clark, Ltd., he has established himself in Hongkong as a commission agent and general importer under the name of Douglas Graham.

A neat little book is that issuing from the studio of Antonio, photo artist, Bangkok. Each has a photograph of a Siamese scene, with which the tear-off "block"—about an inch square—shows a cabinet mount. It is very novel, very artistic, and very useful.

The members of the Hongkong Volunteer Reserve Association will meet for practice and competitions at King's Park, Kowloon, this (Saturday) afternoon, and on Boxing day from 10 a.m. to 5 p.m. To-day will be the final shoot for the year at the 200 yards range; and on Boxing day there will be a competition at the 500 yards range for a cup kindly presented by J. E. Bingham, Esq., second and third prizes being presented by the Association.

The Eastern World says that the Finance Department has decided to dispose of the military notes in Manchuria through the Specie Bank. According to its plan the Bank is to establish branch offices at various places and to exchange the military notes with its bills payable at sight. Some 70 million yen worth of the military notes are said to be in circulation in Manchuria. In this connection it is said that the Government contemplates to revise the law governing the Specie Bank so as to make Chinese eligible for its shareholders (and directors). If that is the case the much-talked-of establishment of a Japan-China Bank will probably be dropped to the ground.

A pamphlet containing the manifesto of the Jewish Territorial Organisation has come to hand. The organisation regards emigration as the only salvation of the Jews suffering under political oppression in certain countries, notably Russia, and wishes to secure territory where those people could emigrate and have legally secured homes. Briefly stated, the object of the Jewish Territorial Organisation is to procure a territory upon an autonomous basis for those Jews who cannot or will not remain in the lands in which they at present live. To achieve this end the organisation proposes (a) To unite all who are in agreement with this object, (b) To enter into relations with Governments and public and private institutions, (c) To create financial institutions, labour-bureaux, and other instruments that may be found necessary.

The Hongkong correspondent of the N.C. Daily News, discussing the forthcoming flower show, says: "I fear they are missing the whole point of having a flower show here. They keep talking of improving the vegetable supply, as if any trumpery prize they could offer could equal the market gardener's lust for good price. The object ought to be to get everybody with a bit of ground or a verandah to coax flowers to come there. Not that much coaxing would be needed; it only means a little initial cost for seeds, a little attention in the way of watering and shading, and Hongkong would become a wonder of the world. It's built for it, a big natural greenhouse. Instead, the people buy from the Chinese a few pots of evergreen things that 'give no trouble and always look fresh!' I could weep for the wasted opportunity."

By kind permission of Lieut.-Col. A. G. Pitton, D.S.O., and Officers, the Band of the Second Battalion "The Queen's Own" (Royal West Kent Regiment) will play the following programme of music during dinner at the Hongkong Hotel this (Saturday) evening:—  
March "Liberty Bell" ..... Sousa  
Overture to "Travellers" ..... Rossini  
Selection from "The Flying Dutchman" Wagner  
Valse "Toujours D'Amour" ..... Waldteufel  
Midi. "The Sultana in the Wood" ..... Michaelis  
Song (Glorious Song) "Kilnsey" ..... Ellis  
Selection from "Sun Day" ..... Jones  
Dance—Horn D'Amour, Bongal Toast.  
Song—Mutton Broth. Fish—Rolled Fish and Tomato Sauce. Entrees—Lamb Cutlets and Green Peas, Jugged Hare and Red Currant Jelly, Cauliflower au Gratin. Curry—Nappal Curry. Joint—Roast Sirloin of Beef, Roast Turkey and Sage, Roast Corned Leg of Pork and Pease Pudding, Cold Potatoes and Mixed Salad. Sweets—Macaroni Pudding, Baked Ice Cream and Potted Coffee, Apricot Tart, Tipsey Cake. Dessert—Coffee—Fruit.

## THE LINCHOW AFFAIR.

CHINESE COMMISSIONERS' REPORT.

[FROM OUR CANTON CORRESPONDENT.]  
The following is a translation of the joint report sent to Viceroy Shun by the Chinese Members of the Commission of Enquiry that sat at Linchow, viz., Cheung Wan Yee (prefect) Ting Ping Lau (sub-prefect of A-chow) Tung Cheuk Thong (present prefect of Linchow), and Shum Lun Shen (the cashiers prefect of Linchow).

We have already reported to you our arrival at Linchow and the aspects of the case. From investigations we have discovered that the origin of the Linchow massacre was through the celebration of the Ta-chin festival at the Chan-Loong temple by the people of the Chei-Yuen-Pa village who had gathered there to propitiate the Gods as to obtain a good harvest. Dr. Maehle protested that a portion of the matched erected for the festival was encroaching on land belonging to the Mission and took away three small cannon by way of retaliation. The village considered that portion of land as the public property of the village. They state that without any provocation what ever, Dr. Maehle insulted the villagers by taking away the Ta-chin cannon. This act, according to the deep religious people, meant bad luck for them. The village people grew very angry and demanded repeatedly from Dr. Maehle that the cannons should be returned to them; but this the Dr. refused to do. The people then went to the hospital to search for the cannon themselves and in so doing came across preserved fetas which they thought to be infants murdered by Dr. Maehle. Then the people's anger knew no bounds and was impossible to suppress. Cries came from ten thousand mouths, and suddenly the matter developed into a serious affair. From careful and minute enquiries made, we are of opinion that the affair happened all of a sudden and was not premeditated and there is, therefore, no ring-leader in the affair. The ignorant people of the village thought they were justified in taking revenge. Consequently they did not loot any of the buildings but burnt them down. The ignorant people of the village having let loose their anger, this serious case resulted. For the crimes committed they deserve capital punishment, but they deserve on the other hand pity and sympathy on account of their ignorance. Now Wen Taoai and your humble servants have separated the criminals and have questioned them separately.

This case being an international affair we dare not be too lenient. At the same time we must take into consideration that it is also a matter with reference to the feelings and beliefs of the general public, and owing to this we cannot be too severe with the criminals.

During the last ten days your humble servants have been considering over this matter night and day and have taken great pains to question and examine the criminals, and have called on the virtuous gentry and respectable witnesses to appear before us to testify. The measures of the crimes committed by those concerned has been clearly discovered and proved. Amongst the criminals there were three, namely: Hung-Ah-shun, Tang-Koon-see, and Leong-Ah-kam, who confessed that they threw a European into the river and used weapons such as pitchforks and spears with which they stabbed them until they were drowned.

At that time the people that had collected together were like a swarm of bees or a heap of ants. The people all acted together and it was impossible to make out who struck the first, the second, or the fatal blow that wounded or killed. It was very difficult to measure the crime and mete out a punishment in proportion as one would in an ordinary case. These three criminals who were the principal actors have confessed that they committed the murders and it has been conclusively proved that they did. We sent your Excellency a telegram praying that instructions may be sent so as to cause them to be beheaded as a caution to others, to deter them from committing such dreadful deeds.

Tang-Lo-chat and Lo-Tak-Koon, two elders of the village, were members of the committee for the Ta-chin Worshipping Festival. Although they did not encourage nor direct the people to commit the deeds, they did not attempt to restrain the men and allowed them to perpetrate such deeds. We beg your Excellency to order that Tang-Lo-chat be sentenced to five years' imprisonment; and Lo-Tak Koon to three years' as he voluntarily surrendered himself. Shun-Ying-Poong and Shing On both followed the mob to the Loong Tam temple but did not take a hand in the murder. Mang-Low-tsang denied that he was the man who first set fire to the hospital but from the investigation we discovered that he was present and took part in the riot. We beg your Excellency to sentence them to five years' imprisonment each. Au-Yung Kin took the Europeans to the Loong Tam temple to hide themselves and demanded money for his trouble and it was stated that he afterwards informed the mob of their hiding place, but this was not proved. We ask your Excellency to sentence him to three years' imprisonment. Loung-Kwai-chow denied cilling the people to arms by leading the mob but it has been proved that he was present at the riot. Leong-Ah-Wing confessed to being present amongst the mob but denied taking part in the affair. These two prisoners should be sentenced to one year's imprisonment. A monk named Nam Sin demanded a reward for allowing the Loong Tam temple to shelter the fugitives. We ask your Excellency to sentence him to six months' imprisonment.

nd to compel him to become a layman again at the expiration of his sentence. Lew Ah Kee, Lew Sheung Nin, Cheong Ah Kwong, Low Ah Shet, Low Ah Foon, Tang Ah Fat and Wong Ah Fat were all present at the riot but there is no proof that they participated. We beg your Excellency to leave it to our discretion to have some of them flogged and others put in the cage to be publicly exhibited as their offence is a light one. The rest of them, Low Chiu Kwan, Wong Tai Choi, Wong Ah Hin, Wong Shek Koo, Low Ah Wan, Low Cheong Ching, Low Ah Chan, Low Ah Sing, and others were arrested by mistake and have been immediately released. Besides these, the Linchow prefect has been instructed to offer rewards for the arrest of any criminals that may have absconded; who will then be tried and punished. It is our duty to forward your Excellency this petition reporting to you the result of our investigation, and the punishment we intend to give the prisoners. We await your Excellency's instructions to teach us how to deal with the prisoners.

#### HOW THE LAND WAS BOUGHT.

From further enquiries made we discovered that the piece of land in dispute between Dr. Machie and the villagers belonged to the village people and was owned by them as common property. Doctor Machie had purchased it from some scoundrels of the village. No notice was posted to inform the public and the deed was not registered with the authorities. No boundary stones were placed to mark the limits of the ground. Now Dr. Machie claims the land to belong to the mission. This is very unreasonable and he took on himself to give a cause for the creation of the trouble which developed into the serious international affair now in question. It is our duty to include this in our report.

#### FREEMASONRY.

At the regular meeting of Victoria Lodge No. 1020 held last evening, Bro. E. C. Barrett was duly installed as Worshipful Master by Wor. Bro. T. F. Hough, acting Deputy District Grand Master. He invited the following Officers:—Immediate Past Master, Wor. Bro. G. H. Grace; Senior Warden, Bro. A. E. Atken; Junior Warden, Bro. A. H. J. Watt; Chaplain, Bro. H. J. G. Whitley; Treasurer, Bro. J. Owen Hughes; Secretary, Wor. Bro. A. O. D. Gourdin; Senior Deacon, Bro. J. Spencer Hough; Junior Deacon, Bro. G. Morton Smith; Organist, Bro. C. F. G. Grimble; Director of Ceremonies, Bro. C. G. S. Mackie; Stewards, Wor. Bros. H. W. Dorman and D. Templeton; Inner Guard, Bro. W. Turner; Tyler, Bro. J. Yanstone.

#### POLICE COURT.

Friday, 22nd December.

BEFORE MR. F. A. HAZELAND (FIRST POLICE MAGISTRATE).

#### DISOBEYING LAWFUL ORDERS.

Captain Casson, of the British ship *Santa*, charged three of his crew with disobeying lawful orders. The Captain stated that on Thursday the defendants went ashore to see the Harbour Master without his leave, and did not return; the Harbour Master had previously informed witness that the crew would not be required that day.

As the defendants informed his Worship that they were willing to return to their ship, he discharged them with a caution.

#### GRIEVOUS BODILY HARM.

A native cook, employed by a shopkeeper at Shamshui, was charged with causing his master grievous bodily harm by inflicting serious wounds on the said master's person with a chopper.

The defendant admitted the charge, and was sentenced to three months' imprisonment with hard labour.

#### AN ALLEGED THEFT.

Denis O'Keefe, Sanitary Inspector, charged Andrew Young and two others with stealing one sleeve link and three grid scarifiers from his residence at Wungshichong.

The evidence showed that the first defendant lived in the complainant's house, and had known him for some eight years. Of late, O'Keefe stated that Young appeared to be peculiar, and within the last few weeks they used to wear one another's scarifiers and sleeve links. He discovered his loss on the 20th instant, and reported the matter to the police, who on making inquiries found the first and third defendants had pawned the missing articles. These men admitted receiving the articles from Young.

His Worship held that there was no felonious intent, and discharged the defendants.

#### BRUNEI CONCESSIONS.

We hear from Brunei that an official notice has been issued there locally, announcing that all persons, having concessions, trade monopolies, or grants of any other kind under the seal of the Sultan of that no longer independent territory, must present the deeds or other papers of authorisation of such grants, to the British Consul at Brunei—Mr. McArthur is still styled there officially—on or before February 22nd, 1906. Otherwise they may be cancelled. This means less than three months' notice; and as it is quite probable that many of the holders of such concessions are in Europe or America, or elsewhere, whether tidings of the new regime would take months to penetrate, the threat of cancellation of all such grants unless they be revised, so to speak, by February 22nd next, is quite unconstitutional, not to say obviously arbitrary and unjust.

#### ST. JOSEPH'S COLLEGE PRIZE DISTRIBUTION.

##### THE VALUE OF DISCIPLINE.

The annual distribution of prizes in connection with this college took place yesterday forenoon, when H. E. the Governor presented successful students with the prizes won by them.

His Excellency arrived at the appointed hour, accompanied by his private secretary, Mr. R. A. B. Pons, and amongst others present were: His Lordship Bishop Pozzani, Mr. E. A. Irvine, Inspector of Schools, Mr. A. G. Romano, Consul for Portugal and Brazil.

Before the business of the day was proceeded with, His Excellency was given a display of the musical and theatrical abilities of the pupils. Masters R. Taylor, in a neatly prepared speech, thanked His Excellency and others for their attendance. The College choir sang the chorus, "The Jolly Chaffers," with an ability which bespoke many months of instruction. A hint, however, to the choir instructor, might not be out of place. If the chorists were prevented from vying with each other as to who should sing (or how) the loudest, the effect would be much more pleasing. Masters J. Tavares and P. Dupuy caused much amusement by the singing of "My Excellent Friend," and the college choir followed with the chorus "We love to sing our Merry Song." The comedy, "The Magic Lamp," was apparently much appreciated by those present. Master A. Wilson took the character of Aladdin, a boy of the period; Master P. Murray that of Mustafad Aladdin, Aladdin's pretended uncle; Masters A. Baptista, J. Tavares and M. Namaz were the companions of Aladdin, Master J. Tavares the Fairy of the Lamp, and Master R. Taylor, Aladdin's Mother. The programme concluded with the solo, "A Boy's Best Friend is his Mother," which was sweetly sung by Master A. Baptista.

Brother Sylvester, the Director of the College, then read the annual report, partly as follows:—

In reviewing the scholastic year of 1905 I find there were 324 boys on the Register and of these 132 were newcomers. Our average daily attendance was 245.89 the highest attendance during the year being 288. The vast difference may be attributed to various causes. Many Chinese boys come from different parts of the Colony and spend some days in the school after which they disappear without even saying good-bye. Among other classes of boys there seems to be no end to birthday festivals. One day it is the grandfather, another the grandmother, father, mother, uncles, aunts, brothers, sisters, all pass in turn, and of course the boys are required to enhance the solemnity. I think that parents who understand the importance that men of business and education attach to punctuality should insist on the children's adherence to the requirements of the school or college in which they place them. Permission of absence when asked for shall never be refused if sufficient reason is given for such an absence. It is very unpleasant when parents after keeping their children at home for a day or more, will simply give a certificate to the effect that the boys were absent with their consent, thus leading them on to a spirit of independence and insubordination which will inevitably characterize them in after years.

The Report of the Inspector of Schools was as follows:—

**Discipline and Organization.**—Good. Standard I. has been divided into two divisions in deference to H. E. the Governor's advice given at the last prize-giving, that particular attention should be paid to the beginners. I regret to say that nothing has been done to teach the Chinese their own language. Attention was drawn to this point in last year's report. One boy I questioned, a boy of about fifteen, did not know a single character. When a Chinese cannot read the simplest letter, notice or name over a shop, he cannot be called properly educated. For this reason I am unable to report that the organization is "thoroughly efficient."

In examinations time is wasted by copying out the questions and ruling unnecessary lines. The boys frequently fail to put their names and the school at the top of their papers.

**Sanitation.**—The ventilation of the rooms seems now very satisfactory. A additional doors have been made so that it is not necessary any more to pass through one room to go to another.

**Apparatus.**—The maps in some of the rooms need renewing, especially those used by Standard II. Much new apparatus has, however, been bought recently. Slates should not be used above Standard III.

**English, Colloquial.**—The great majority of the boys are blear-eyed and seem to learn to speak English by the natural process. Nevertheless their fluency should not blind the teachers to the fact that they constantly employ foreign idioms in their speech, and these constantly appear in their compositions even in the highest standards.

**Reading.**—Good.

**Composition and Grammar.**—A large proportion (17 boys out of 29) of Standard V. obtained less than 40 per cent of marks at examination. It would appear that promotion has been somewhat hurried. Standard VI. did better. Their composition was good on the whole, though the essays were lacking in matter. Half the standard got half marks or over, and two thirds over 40 per cent. There are only three boys in Standard VII. They did well in grammar but their compositions are not up to the mark.

**Handwriting.**—Deserves more attention. It is not good in the upper standards. In all English subjects it is noticeable that on the one hand the work was done very neatly and fully, and on the other hand the work of even the best boys of the upper standards was marred by absurd mistakes in grammar and spelling.

**Geography.**—In the lower standards the local geography and the outlines of Asia were well known. Standard V. had too long and too wide a syllabus and failed badly at examination in consequence. Standard VI. on the contrary did very well. The whole standard obtained over 40 per cent of marks, and 75 per cent of the boys got over half marks. Standard VII. did well.

**History.** Is very well taught. Very intelligent answers were obtained in Standards VI. and VII. The papers taken as a whole show the boys have a real grasp of the subject. Standard V. again did not so well.

**Mathematics.**—One boy in Standard VII. Senior obtained full marks in papers set in arithmetic, algebra, and geometry—a remarkable performance. His work shows that the teaching must be excellent.

**Arithmetic.**—Standard I. have been doing mental arithmetic daily with very good results. Standards II. to VI. were rather disappointing. Common sense does not seem much enough, and very simple problems were found too difficult for solution. Standard V. were especially weak in the conversion of dollars into shillings and pence, and in decimals, and their inability to use the unitary method in the solution of problems. In Standard VI. the work was neat and the methods were in most cases good. But there was a want of accuracy.

**Algebra.**—The subject is very well taught. More time might be given to the solution of problems.

**Geometry.**—Taken in Standard VII. Senior and Junior. In the Junior division the arguments were not written out as if the writers were altogether convinced of their truth.

**Drawing.**—A new subject. No great advance has been made with it so far. Excellent material have been procured, and it may be hoped that St. Joseph's may before many years produce draughtsmen of the quality it once used to do.

**Hygiene.**—Not begun.

**Grant.**—I recommend a grant at the rate of 30/.

In view of complying with the wishes of the Inspector of Schools, I have taught in the College at present for one hour every school day. In addition to the above subjects we have established a shorthand class and a typewriting class, as also the teaching of book-keeping, mensuration, and the elements of vocal music. The results of the Oxford Local Examination were very good. We presented but one boy in the Senior and he succeeded very honourably. We presented three in the Junior and two succeeded. Eleven boys sat for the Preliminary and also succeeded. One boy coming out with third class honours and distinction in geography. I am glad to say that a good number of parents take a great interest in the weekly report. There are, however, some parents who do not prize it at its just value, and seem to ignore its existence. Our monthly and quarterly examinations continue to be held faithfully and the results are sent to the parents that they may see what their sons are doing and how they are conducting themselves. The boys of the college continue to take a great interest in the inter-school games and sports. Unfortunately their playground is so limited that their success must naturally be far from satisfying their aspirations. Before concluding we have to make mention of the great loss our college has sustained by the death of the Right Rev. Bishop Piazzi, a most distinguished benefactor of this institution. We also have to lament the death of the Hon. E. R. Bellios, who was a signal benefactor of the college, and whose memory will always remain connected with the school through the two scholarships he so generously founded for St. Joseph's College. I beg to tender my very sincere thanks to H. E. the Governor for so graciously consenting to present the prizes to the deserving boys of the school. I also sincerely thank His Lordship the Bishop who notwithstanding his many calls, has so highly honoured us by his presence here to-day. I have also to thank Major-General Vidler, Hon. Mr. J. J. Leiris, Vice Consul for Portugal, Major Peiley, Mr. Ho Tung, Messrs. Brewer & Co., Mr. Jose Machado, Mr. C. J. Gonzalez, Mr. V. H. Deacon, and Mr. Anthony Shing Koo, for so generously contributing to our Prize Fund. I avail myself of the present occasion to offer my hearty good wishes to one and all for a very Merry Christmas and a thrice Happy New Year (applause).

His Excellency then presented the prizes, and it can safely be said that there was never a more expeditious presentation at any school in Hongkong, the arrangement made by the masters saving a great deal of time.

The Governor then said:—Rev. Father: The report of the Inspector of Schools is not entirely satisfactory and I trust his remarks will be considered with a view to obtaining an improvement in the coming year. The subjects which seem specially to require your care are correctness in English speaking and in grammar, clearness in handwriting and accuracy in arithmetic. I share the hope expressed by the Inspector that St. Joseph's College may soon again produce good draughtsmen, as I understand formerly was the case. I am disappointed that an earlier start was not made in the study of hygiene to which I attach a great deal of importance. I am not sure that you are entirely well advised to add the new subjects of shorthand, typewriting, and book-keeping to the curriculum of the College. Unless boys remain under instruction for longer than they do now the addition of new subjects will tend to lower the standard attained in the old ones. I have under consideration a scheme for evening classes at Queen's College, open to all, at which instruction will be given in subjects of use to boys going in for commercial or professional careers, and it may prove more advantageous for this and other schools to send their senior boys to these classes than to provide themselves tuition of the nature indicated. I congratulate the boy who obtained full marks in arithmetic, geometry and algebra, and shall be surprised if I do not hear more of him in the future.

**Boys.**—The Rev. Father complains of irregularity and unpunctuality in your attendance. I am sure that this irregularity must make it difficult for him to keep up a high standard in the College. It is also harmful to yourselves. The habits that you form here will be the habits that you will take with you through life. If you are unpunctual and irregular in your school career you will be unpunctual and irregular when you go out into the world and you will then find that the world has no use for you. No matter how clever a man may be, if he cannot be counted on to be at his work, when he is wanted, if in other words, he is unreliable he will not fit into any business or organization. He is like a wheel in a machine that every now and then won't go round and so stops the machine from working—it has to be discarded. Every business is a machine depending for its efficiency on every part regularly doing its work. No head of a business will keep an employee who may be absent from his post when there is an important duty to be performed any more than a captain of a ship will keep on a sailor who may be away from his lookout at the time a collision has to be avoided. This is a practical point as I know from experience; when a government officer is reported as irregular or unpunctual in his attendance I know that in the interests of

the public I have to get rid of him. If the boys of St. Joseph's College do not acquire habits of regular attendance at school the Government and other employers will look elsewhere when they have a start in life to offer a young man. I shall be obliged, Rev. Father, by your reporting specially to me on this subject at the end of next year, and if you will point out to me now the boy who has been most regular in his attendance during the last year, so that I may mark the importance that I attach to this matter by presenting him with a special prize.

As the school records had to be searched to discover which boy was entitled to the prize His Excellency left the bestowing of it in the hands of the Director.

As His Excellency left the College, the boys who were drawn up in two lines along the side walk, gave him three hearty cheers which were smilingly acknowledged.

#### THE EWO COTTON SPINNING AND WEAVING CO., LD.

##### DIRECTORIAL PLURALITY.

The tenth ordinary meeting of shareholders in the Ewo Cotton Spinning and Weaving Co., Ltd., was held at Messrs. Jardine, Matheson & Co.'s Shanghai office on Dec. 16th. Mr. W. J. Gresson presided, and there were also present: Messrs. A. McLeod, P. F. Lavers, Zee Quanying (Directors), W. C. Murray, Dr. N. Macleod, J. Kerfoot, J. C. Hanson, E. R. Morris, G. Butler, J. J. Dunne, Ching Yue, Xuen Cheong, and J. McKie (Secretary).

The CHAIRMAN said: Gentlemen.—The annual meeting of the Ewo Cotton Spinning and Weaving Co., Ltd., for the year ending October 31st 1905, and of which I am the representative, has been held in the hands of shareholders for the prescribed period of 14 days, and with your permission we will now adopt the usual form of procedure and accept them as read.

At our last Annual General Meeting on December 23rd, 1904, it was announced to shareholders by my predecessor as Chairman of the Consulting Committee, that prospects for the year under notice were good, and that statement has been fully justified by our being able to submit to you to-day a better result than has been achieved since the mill started working.

This exceptionally satisfactory result of our working is not in any measure caused by a departure from the policy we have previously adopted of endeavouring to buy cotton and sell yarn simultaneously and so secure a certainty of a profit—there has been no speculative feature in our operations—but what we have been able to avail of was the advantage of an unusually active demand for coarse cloths, resulting in the supply of imported goods and native hand-loomed goods, and thereby consuming a greater weight of locally and native made yarn.

Cotton prices at the beginning of our financial year ruled high, but the crop being not only a big one, but a good one—and large growths almost invariably are good ones—resulted in a decline of quite ten per cent from the opening when it was apparent in the summer months that an increased acreage had been put under cultivation.

In April the margin of profit we were making on forward sales of yarn suggested the advisability of working the mill night and day, and although considerable difficulties in the matter of labour had to be overcome, our Manager, Mr. Kerfoot, was equal to the occasion, and results warrant the departure which continues to-day with an ample supply of capable hands, enabling us to maintain two full shifts.

Turning to the accounts, I feel sure that the shareholders will appreciate the conservative policy of your committee in recommending a dividend only a small percentage of earnings, but yielding a return of sixteen per cent on share value. The transfer to a new account of \$100,000 makes provision for rainy days, and the sum of \$15,459.90 placed against renewals and repairs account is more prudent than ordinarily necessary, because in its annual report, our mill manager writes that "the machinery has been overhauled and is in good condition." This statement is supported by the fact that we have spent in renewals and repairs this year, \$15,675, as against \$10,515 during 1904. The satisfactory feature in the account is that the credit balance shown in the debit entry for interest incurred in \$20,000 less than last year.

In view of the excited state of American cotton markets, and the unusually far forward engagements of manufacturers in Lancashire and American mills, the future of our industry is shrouded in uncertainties, but it may satisfy you to know that the production of the Ewo Mill is sold at good, night and day working, profits for four months of our new financial year. (Heard here.)

Before submitting to you the formal resolution that the report and accounts be published, and now in your hands, be passed, I shall be very pleased to reply to any question the shareholders may ask me.

Mr. BUTLER—I have doubt, Mr. Chairman, you can give a satisfactory answer, but I shall be glad if you will tell us why this amount of \$15,459.90 was not deducted before from the gross amount instead of it being carried to the profit and loss account. It is \$15,459.90, and has been deducted first; you say you charge commission on it.

The CHAIRMAN—That item of \$15,459.90 is part of the total profit on the year. The general managers are entitled to commission on the total profits. It seems to me that it does not matter what account you put it to, to either the repairs and renewals account or to any other account; but it is part of the net profits of the year.

Mr. BUTLER—I have no doubt you are correct. This report no doubt has been before the directors who passed it with their approval?

The CHAIRMAN—Certainly.

Mr. A. McLEOD—I don't think Mr. Butler exactly understands. This \$15,459.90 odd is to provide for future repairs.

Mr. BUTLER—Oh yes, I see that.

Mr. McLEOD—The repairs as you will see have already been debited to the profit and loss account in the sum of \$15,675.82, and this sum is to provide for future repairs; it might be put to the reserve fund or anything else.

The CHAIRMAN—I beg to propose that the report and accounts as presented be passed.

Mr. McLEOD seconded, and the resolution was carried.

Mr. J. J. DUNNE proposed the re-election of the retiring Consulting Committee.

Mr. W. C. MURRAY seconded.

Mr. BUTLER said—On this I should like to make one or two remarks. It has been my conviction for a good many years past that the Directors of the companies in Shanghai are, and have been, largely overpaid. I will admit that there are companies in Shanghai in which a considerable amount of work devolves on the directors, but these companies are an exception,

From Itching and Bleeding Eczema—Pain Terrible—Body and Face Covered with Sores—Doctors and Medicines Failed.

#### ANOTHER WONDERFUL CURE BY CUTICURA

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until I was cured by the Cuticura Remedies; and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I had made up my mind that death was near at hand, and I longed for that time when I would be at rest. I had tried many different doctors and medicines without success, and my mother brought me the Cuticura Remedies, insisting that I try them. I began to feel better after the first bath with Cuticura Soap, and one application of Cuticura Ointment. I continued with the Soap and Ointment, and have taken four bottles of Cuticura Remedy, and consider myself well. Any person having any doubt about this wonderful cure for the Cuticura Remedies can write to my address. Mrs. Alice Sloan, Bellevue, Mich."

UNION INSURANCE SOCIETY OF CANTON, LIMITED.

NOTICE IS HEREBY GIVEN that an EXTRAORDINARY GENERAL MEETING of the UNION INSURANCE SOCIETY OF CANTON, LIMITED, will be held at the Registered Office of the Society No. 1, QUEEN'S BUILDINGS, Victoria, in the Colony of Hongkong, on THURSDAY, the 4th day of JANUARY, 1906, at 11.30 o'clock in the FORENOON, when the aforesaid resolution which was passed at the Extraordinary General Meeting of the Company held on the 26th December, 1905, will be submitted for confirmation as a special resolution.

That the Capital of the Society be increased to \$3,000,000 by the creation of 2,400 additional ordinary shares of \$250 each (whereof \$100 shall be credited on paid up) ranking for dividend and in all other respects par passu with the existing ordinary shares of the Society; and that the said additional shares, so far as shall be necessary for the purpose, be issued to those shareholders of the CHINA TRADING INSURANCE COMPANY, LTD., who have accepted or shall accept the Society's offer made to them on the 25th August, 1905, such issue being in accordance with the terms of a contract or memorandum in writing made or to be made pursuant to the said offer and to be filed with the Registrar of Companies; and that the balance, if any, of the said additional shares be disposed of by the Board in such manner as it shall think most beneficial to the Society.

Dated the 20th day of December, 1905.

By Order of the Board,  
W. J. SAUNDERS,  
Secretary.

### AN APPEAL.

THE SISTERS of the Convent at Macao will be very thankful to Shopkeepers, Linen Merchants, Clothiers and Tailors in Hongkong, Macao and elsewhere who will send to them remnant material, books of patterns no longer used, and any pieces of cloth, no matter how small, which they cannot make use of.

Those who send without, at no cost to themselves, afford the persons hands in the convent, especially the little ones, opportunity for useful occupation, pieces of cloth, even of a square inch, can be patched together and very pretty pieces of work made out of cloth, that would otherwise be thrown away. These articles are bought by charitable persons, and the Sisters are thus helped to keep up their very large establishment, which is maintained by the earnings of the girls themselves, who lead by no means an idle life within the convent walls.

## Angier's Emulsion

(PETROLEUM WITH HYPOPHOSPHITES)

has this supreme virtue, that it not only soothes and heals the mucous membrane of the lungs and air passages, and relieves the troublesome cough, but at the same time promotes appetite, keeps the digestive organs in a natural healthy condition, and greatly improves digestion, assimilation, and thus building up the health and strength as nothing else will. Pleasant to take, it agrees with the most delicate stomach, and can be taken undiluted or in any desired beverage. Petroleum not being animal oil is acceptable to all castes and all forms of religion. Furthermore, in its preparation the Emulsion is untouched by hand.

CAUTION.—Do not risk disappointment or worse by trying imitations made with ordinary petroleum. Be sure to get Angier's, in the three sizes, of Chemists and Druggists.

## A SAFE REMEDY FOR ALL SKIN AND BLOOD DISEASES

If you suffer from any disease due to an impure state of the blood, from whatever cause arising, you should test the value of Clarke's Blood Mixture, the world-famous Blood Purifier and Restorer. This medicine has 40 years' reputation, and is today more popular than ever, the reason of this being undoubtedly because this wonderful remedy does what it professes to do—it CURES SKIN AND BLOOD DISEASES PERMANENTLY.

## Clarke's Blood Mixture

IS THE FINEST BLOOD PURIFIER  
EVER DISCOVERED.

It is warranted to cleanse the blood from all impurities, from whatever cause arising. For SCROFULA, ECZEMA, BLOOD POISON, ULCERS, SKIN AND BLOOD DISEASES, and SORES OF ALL KINDS. It is the only real specific for Gout and Rheumatic Pain, for it removes the cause from the blood and bones.

NOTE. This mixture is pleasant to the taste and warrants free from anything injurious to the most delicate constitution of either sex, from infancy to old age, and the Proprietors solicit sufferers to give it a trial to test its value. Thousands of wonderful cures have been effected by it.

TRIED MANY THINGS WITHOUT BENEFIT UNTIL I TOOK CLARKE'S BLOOD MIXTURE. Mr. E. E. Lewis, 48 Bridge Street, Rye, Chester, writes:—Just a line in favour of Clarke's Blood Mixture. I had eczema for seven months, and tried many things without benefit until I took your remedy. After the eighth bottle I was quite well again. Please accept this letter as a token of gratitude to your wonderful Clarke's Blood Mixture.—June 31, 1905.

Sold by all Chemists and Patent Medicine Vendors throughout the World.

## PREFERENCE RATES FOR MISSIONARIES.

The following letters appeared in the Japan Chronicle:

St. Andrews proposes your editorial note in to-day's issue about the demand of the Mormon Church to share the privileges granted by the railways in America to missionaries of other churches, may I ask what is your candid opinion of the equity of the steamship companies' trading with the Orient giving such a handsome rebate to missionaries who do not pay their own passage? I think I may safely say that every one of the missionaries in Japan is sent to the field by a Society that can well afford to pay as much as you or I pay for our passage tickets when we go home and when we come back; and you know as well as I that we do not get a Substantial year, even of half-pay, with all travelling expenses provided. I have never seen any justice in the rule which the steamship companies have of granting a reduction to those people who usually have their expenses paid for them, and refusing it to the merchant who really contributes about all there is of paying freight in the steamship business. The system is a thoroughly bad one. If the rates are too high for the missionary, they are too high for the merchant, and there ought to be a scaling all round. Under the present arrangement, there is a tremendous temptation to dishonesty, when some one else is footing the bill, to charge up the full price of the ticket and put the rebate into the pocket; it has been done by some very good people, or at least they would vehemently repudiate the charge of ungodliness. While on this subject, let it ever occurred to you that, taking into consideration the depreciation of the currency of Japan and China, the Trans-Pacific passenger rates are virtually higher now than they were thirty-eight years ago, when the first line was opened? I do not believe in the unfair discrimination in favour of missionaries, and I am much opposed to the existing high tariff; in that respect there has been very little advance in this part of the world. Yours, etc.—ONE WHO GETS NO FAVOURS.  
Dec. 7th, 1905.

## JOINT STOCK SHARES.

Messrs. Vernon & Smyth say in their weekly share report dated Hongkong, 22nd December, 1905.—A small business has been transacted during the week, chiefly in connection with the approaching settlement, but nothing of any importance has occurred, and no new feature in the *mutatis* of the market has been introduced; rates, however, have in many cases declined further and the market is anything but active.

BANKS.—Hongkong and Shanghai have been placed at \$865 after being on offer for some days at \$870, the market closing quiet but steady at the former rate. National unchanged.

MARINE INSURANCES.—Unions have been negotiated in the early part of the week at \$710, and close with sellers at that rate. China Traders, after the payment of the dividend of \$11 on the 18th inst., have been placed at \$811 and \$81, closing with sellers at the latter rate. Cantons are on offer at \$825 without inducing sales. North China and Yangtze unchanged and without any local business.

TIME INSURANCES.—Hongkong continues neglected but China have firmed up a bit, and after sales at \$87 close in demand at that rate. Shipping.—Small sales of Douglas at \$35, Indes at \$91 and China and Manila at \$211 are all we have to report under this heading.

REFINERIES.—China Sugars, influenced by the approaching settlement, have further declined to \$290, market closing with sellers. Some sales are reported below this rate. Unions have been placed at \$25 and \$25 in small lots, closing with further buyers at the former rate.

MIXING.—Rants have improved to \$175 with buyers but no business to report.

DOCKS, WHARVES AND GODOWNS.—Hongkong and Whampoa Docks ruled firm during the early part of the week and sales were effected at \$164, later, however, they again weakened to \$163 with sales, market closing with buyers at the latter rate. Kowloon Wharves, after sales at \$106, close quiet with a few shares on offer at that rate. Farmlands, after falling to \$130, have rallied to \$131 with buyers.

LANDS, HOTELS AND BUILDINGS.—Hongkong Lands have been placed in small odd lots at \$124, Hotel at \$140, and Humphreys at \$121, the last closing with buyers.

COTTON.—Quotations are taken from Shanghai except Hongkong Cottons which have been placed locally at \$134.

MISCELLANEOUS.—Small sales of Powells at \$100, Farwicks at \$25 (old), China Providents at \$91, and Coments at \$21 are all we have to report under this heading.

## COLONIAL AMERICANS.

One of the members of the recent Taft Commission has acquired a poor idea of his compatriots in the Philippines. He writes:—The American business man is thus far not a success in the Philippine Islands. Perhaps this is too sweeping a statement, and should be qualified by the remark that the "read" American business man has not yet gone to the Philippines in any number worthy of note. But the fact still remains that, on the whole, American business ventures in the Philippines since 1898 have not been noteworthy for achievement, and have not been very noteworthy even for attempt.

Of course, the class of "business man" who followed close on the heels of the army of occupation was the adventurer, for the most part. The American adventurer, beachcomber, even at times the American camp-follower and the discharged or deserted soldier—these were the classes from which, for several years, the number of civilian Americans in the islands was chiefly recruited. The civil service force had grown to be a small army of employees before civil government began, and has since very considerably expanded. Since civil government began, too, there have come in some reputable American business men. More are still greatly needed, however, in order to leave the whole lump. For the adventurer class is still predominant outside of the ranks of Government service. It is not in point here to discuss the harm that is done by this class of American, as regards the good-feeling that ought to exist between Americans and Filipinos in order that the new and rather anomalous government we have instituted in the islands may succeed. But this element is a constant menace to such good feeling, and their cheap race prejudice and generally jingoistic spirit are reflected almost constantly in the columns of the American press of the Philippines which extends to the majority of Americans in the islands and thus serves as a barometer of American public opinion in the islands. Herein lies the explanation of the statement so often made that the "Taft policy" is not popular with Americans in the Philippines.
